Visits Friends in Norway

Fred H. Brock came here as a boy in 1900. He worked at the Beal's Hotel for John A. Woodman three years and rattled around as all good boys do.

He left 15 years ago, got married and took to the road. He now has two children, a boy and a girl and the former is 12 years old, March 28th and they live happily with their mother at Wells River, Vt., where Fred calls to see them as often as he can and interfere with the sale of Baum's Motor Products, of Rome, N. Y., which he peddles in three states.

Fred's hair is turning gray, he dresses neatly and prosperous in his huge tortoise bowed glasses. I saw him Wednesday at the Tavern trying to convince John Woodman and Tom Thibodeau that his children were great students in natural history and that this life is really worth the living.

Testimonial Banquet in Boston

Isaac Crocker of Providence, R. I., the founder of the Crocker System Rubber Store and a subscriber to this paper, recently gave a banquet to two of his managers who have been with him 25 years—Mr. A. H. Bloss of Worcester and Mr. Fred A. Jewell of Lawrence. The banquet was at the United States Hotel in Boston and was largely attended. Suitable remembrances were given and speeches made and the affair will long be remembered by all attending. Henry J. Callahan was toastmaster and Erastus E. Dorman made presentation speeches. Mr. Crocker handed out the presents.

French, Mrs. Emma Cullinan, Mr. and Mrs. Frank DeCoster, Mr. and Mrs. W. Arthur Lewis, Mr. and Mrs. Percy H. Nevers.

JOB PRINTING

You Get It When Promised At

"Buy or Borrow a Copy," Norway, Me.

Mrs. Caroline Tee Dinsmore

Mrs. Caroline (Tee) Dinsmore passed away at her late home on Pleasant street Thursday afternoon, March 21st, at 4 o'clock. Mrs. Dinsmore had been ill for some time with gall stones and Wednesday submitted to an operation and death was due to exhaustion following the operation. She was faithfully and tenderly cared for during her long illness by her daughter with the assistance of a nurse during her final sickness.

Mrs. Dinsmore was the daughter of William B. and Caroline (King) Tee and was born in Carisbrooke village, Isle of Wight, England, sixty-nine years ago. She came to America when a child and received her education in Genesee, Ill. On Dec. 16, 1867 she was united in marriage to Charles W. Dinsmore at Genesee, Ill., where they resided for some time, Mr. Dinsmore being employed in Mr. Tee's mill. About twenty-five years ago they came to Norway where they have since made their home.

Mr. Dinsmore passed away in the summer 1912 and since his death Mrs. Dinsmore has divided her time with her daughters, Jessie L., wife of Victor M. Whitman of Norway, and Nellie, wife of J. W. Haxby of Clarinda, Iowa. Besides her two daughters she is survived by four sisters, two brothers, all in the west, and three grandsons, children of Dr. and Mrs. J. W. Haxby. In religious associations she was a Congregationalist.

The funeral was held from her late home 20 Pleasant street, Monday forenoon, March 25th, attended by Rev. C. E. Miller. The bearers were Frank W. Cox, Charles A. Frost, Frank W. Faunce and Herbert J. Holt, all neighbors of the deceased. Interment was at Pine Grove Cemetery.

Mrs. Emma Richards

Mrs. Emma Richards, 59, wife of Wm. Richards, passed away Monday morning, March 25, after being ill about a week with double pneumonia. She was a native of Saco and lived there during the early part of her life. About twenty years ago the family came to Norway from Buxton, where she has since resided. She is survived by her husband, two daughters, Mrs. Ethel Dorr, and Mrs. Jennie Dorr both of Matinicus, Me., two sons, George, residing in Indiana, and Allie of Norway.

Rev. H. L. Nichols conducted the services at Leroy Spiller's undertaking rooms this Thursday afternoon. A beautiful spray containing thirty pinks was sent as a token of esteem from neighbors on Water street. Burial at Pine Grove Cemetery.

Mrs. Minnie B. Bell

After an illness of several weeks with pneumonia in the Trufant Hospital, Mrs. Minnie B. Bell, wife of Charles A. Bell of Norway, passed away Monday afternoon, March 25, aged 37 years, 11 mos., 25 days.

She was born in Gorham, N. H., March 28. 1880, the daughter of Albert J. and Julia (Porter) Brown, both natives of Sweden, and has lived in Norway about two years. Several weeks ago the family had the measles, which in her case and a son, Wesley, aged three developed into pneumonia. The boy died Saturday, March 16. Her husband, a son and her father, Albert J. Brown of North Waterford, survive.

Services were held in Leroy Spiller's Undertaking Rooms Wednesday at 9.30 in the forenoon, conducted by Rev. H. L. Nichols. Burial in the Porter Cemetery, Otisfield. The neighbors on Water street expressed their sympathy in the form of a beautiful spray of pinks.

History, Iron and Balsam

S. A. Stearns, a former East Stoneham blacksmith, called at our office recently. He is and has for the past three years been pounding iron for the Paris Manufacturing Co. and well likes his job and surroundings. He would have preferred to have lived in Stoneham, but he foresaw the result of Ernest Bartlett's monopolizing of farms and left when the going was good.

He makes a healing balsam that will grow up human flesh while you wait and the demand is great. This he has been doing for 20 years and has a long list of pleased customers who could not get on in safety without the Balsam in the house.

Business is good and many large orders are going through the factory. Iron work for 300 wheelbarrows has just been completed in the blacksmith department and there is more to follow.

His family has recently successfully passed through a siege with measles and he is happy.

Has Been Promoted

Wm. C. Horne, who has been clerking in Boston for the past two years for the United Fruit Co., has been promoted and is on his way to Almirante, Republic of Panama to have charge of some of the affairs of the company there.

Before leaving, he was banquetted by his friends at the Quincy House with suitable presents and speeches. Of course he was pleased and carries with him the best wishes of his friends for his success in his new field.

Mr. Horne made an over night stay here last week to arrange for leaving the country. He has to have a certificate of his birth, an affidavit of good character and a photograph to get in and out of the United States in war time.

An article has been placed in the Corporation warrant to re-locate the hidrant corner of Main and Fair street, Ward 8. In winter the drinking fountain nearby overflows and an accumulation of ice frequently covers the hydrant. In an emergency the delay in making connections might prove a serious thing, not only by letting the fire department in a bad face but might cause an unexcusable roperty loss with the usual hardship.

Doris Longley is visiting relatives in Auburn during the school recess.

Mrs. John Prince and Dorothy Truman were at Lewiston, Saturday and Sunday with their brother, Harold Truman, who is convalescing from an operation for appendicitis at St. Marie hospital.

Frank P. Hoyt of Haverhill, Mass., has written words for the song, "Stand Up For Uncle Sammy" which is making a hit especially in New England. Mr. Hoyt resided in Norway several years was employed in the shoe shop and with the Holden brothers made a hit on the local stage in black face and acrobatics. Since living in Massachusetts his musical talents have been developed and this popular song is bringing his name and that of a brother before the public.

S. C. Foster, barber, Main St., says: "I have used Doan's Kidney Pills and I am only too glad to say to others I think they are the best of kidney medicines. Several years ago I had a little kidney trouble. I got Doan's Kidney Pills at F. P. Stone's Drug Store, and I was soon feeling all right again. I remained so for a long time, but later caught cold and my kidneys gave me trouble. I again took Doan's Kidney Pills and they gave me relief." (Statement given July 24, 1908.)

On June 6, 1916 Mr. Foster added: "I think as well of Doan's Kidney Pills today as when I first endorsed them. I use them occasionally, as I feel in need of them and I am always promptly benefited."

THE VILLAGE PIER

I stood today at the village pier,
The winter sky looked cold and drear;
And all was silent as could be,
The place had lost its charm for me.

But soon will disappear the snow—
The icy fetters must let go.
The sun will shine there bright and warm
And birds will sing in the early morn.

And soon the voice of frogs that peep
Will echo down the lonesome street.
And evening songsters make reply
Just as they have in days gone by.

The people then will talk and laugh,
And ride in motor driven craft,
Where waters glisten like the dew
And sparkle there for me and you.

And youths will come with line and hook,
The boat house with its rustic look,
Where skilled mechanics drive their nails
And sit and tell their hunting tales.

And when the sky is azure blue,
'Tis then I'll take my good canoe
And glide away and dream once more
Within the shadow of the shore.

And watch the silvery ripples break,
And see the darting pickerels wake.
Our hearts will then be filled with cheer
When we gather at the village pier.

Frederick Marshall Davis.

SCOTT'S EMULSION

has been correcting this trouble when other treatments have utterly failed.

Scott's is essentially blood-food in such rich, concentrated form that its oil gets into the blood to alleviate this stubborn malady. Get a bottle of *Scott's Emulsion* or advise an ailing friend. *No alcohol.*

The Norwegian cod liver oil in Scott's Emulsion is now refined in our own American laboratories which makes it pure and palatable.

WANTED

A man and wife to have charge of the Waterford Town Farm for the coming year, beginning April 1st, 1918.

11-13 Selectmen of Waterford, Me.

LOCAL PICK UPS

Did you see the sweeper sweep?

The person next door is not necessarily a neighbor.

If the eatless days increase, there will be some sleepless nights.

A Norway man claims to be a lion, and we'll concede that he is always lying.

We are so glad that so much of the poetry in some people's souls is unwritten.

Workers don't criticize. It is the I. W. W.'s that do that.

Every town has a big man who is a great big baby. Norway is no exception.

W. A. Bicknell: "Some people will pull a house down to straighten a lightning rod."

Ad in Belfast paper: "Two-pocket girls wanted." Wonder if a one-pocket girl would do?

There is always something to ruin men. It used to be race horses. Now it is automobiles.

Frank Stone:—"A dog howling dolefully at night is not a sign of death, but a sign of a nuisance."

Frank Towne:—"Some farmers won't admit that they raised a crop until after they have marketed it."

Arthur Hebbard: "I have sufficient peat over in my bog to furnish Norway with fuel for a year or more."

Charles Johnson still insists that the war in Europe was started with the view of attracting tourists. Guess he is right, too.

Harry Lovejoy dug out ten cents opposite the hotel the other day. It was claimed by Paul Seavey, but Harry put it in his pocket.

F. E. DeCoster, postmaster: "Every letter and parcel sent by mail should bear the return address of the sender. This will avoid having the letter sent to the dead letter office in case the addressee cannot be located, and will save all concerned a lot of trouble and anxiety."

The Advertiser of March 30, 1917 had the announcement of 13 deaths and the average age was in excess of 80 years each. The oldest was 91 and the youngest, 66 years. They all died between March 19 and 27 and why? I do not know. They lived in 12 different towns and Norway contributed two: Amos French and Mrs. Josephine F. Hemmingway.

Mrs. Will Leavitt: "Apple peelings stop hens laying and I don't give mine any." She works her biddies over time by using electric lights on short days and setting the clock backward and forward with the changing seasons. She also brags of getting 54 eggs for two consecutive days from a flock of 75.

Every woman who attended the Eastern Star gathering the other night took along food—more than enough for herself, her family and friends, but when the feast was over there was nothing left but dirty dishes. All the male star gazers secretly feels that his wife's contribution was the largest and best. Sure thing! You ought to have been there.

Times now are much as they were when Abraham Lincoln said: "Men should utter nothing for which they would not willingly be responsible through time and eternity."

A warning: If you don't turn in any news Walter Chandler will be compelled to write lies. Your duty is plain. A newspaper has to be filled up in some way or other.

Let us all be content with such things as we have. God is just as good in what he keeps away from us as in what he gives us. Even a knot may be useful if it is at the end of a thread.

Shortie Cook is neglecting his business chasing after sugar. And there are others!

Those small automobile notices tacked to telephone poles annoy me. Can't they be taken down and put where the swing signs have gone?

Workless, heatless Mondays have passed and a few of Mother's house plants have survived. I once wrote an item saying she was all bowed down in grief over the loss of the house plants by freezing. Al Weeks of the Laconia News and Critic quoted the item omitting the "l" in plants and added: "This reminds me ourns lost hern." Bro. Lance of Meredith got back at both of us saying it was a "Scandalous News Item." Since then I've ventured no further remarks about the condition of Mrs. S's house plants except to modestly announce that some of them have survived.

I've heard Bob Seavey recite this poem with telling effect: 'Twas the night before Christmas, and down in the cellar, a barrel was placed by a strapping big feller. And a wee little mouse, who lived thereabout, saw a leak in the barrel, and something run out. Now the barrel held whisky, but this little guy had been raised in Maine and knew nothing of rye. So the little mouse tasted the stuff that was wasted, and he liked the sensation—it made him feel gay. I'll just get enough of this awful good stuff, before that big bluff comes and takes it away.' And when the wee mousey had filled its wee skin with so much of the liquor no more could get in, he gave one big jump to the top of the keg, cocked his head to one side and waived his right leg. 'I'm as brave as a lion; I'm as big as a cow. I can whip that darn cat is she comes along now.'"

As near as I can figure it I made something in farming last year. It is a perplexing problem to find out the exact amount. I've been over the figures many times and have twice settled with my partners on a different basis.

Cash paid was $69.18 and potatoes sold brought in $30.25 and then I stop as that is all the money I've seen. I'm told a good profit was realized. How, where and when? I don't know. We had 42 bushels of potatoes, 2 1-2 bushels of beans, 16 squashes and some turnips, beets, pumpkins and the like.

Am to try it again this year and have already invested $31.25. One-half of this sum is drawing interest at 6 per cent. and thereby I'm hoping to get a profit on the money invested if not on the crops raised. Funny world thus! Farm for a profit!

Where is Talbot Mundy and the wood chopping gang? Jim True's pigs and Shortie Cook's talk?

"Tap-a-Tree" and be happy. I'm to tap two—a telephone pole and an elm. Both are on Main street. They will be seen and I'll be happy and get about as much return as I did in farming last year.

Mrs. Marilla M. Ricker of Boston in reviewing last week's Advertiser in which reference was made to her, she says:

"I laughed when I read the article about me. It is a good paper. Mr. McIntire's article is truly patriotic and sensible and should be heeded. I am some farmer!

"I'm inclined to think as you do about Miss Rankin, she voted against war and cried, I would have voted for war to the knife and the knife to the hilt—I shouldn't have cried, I should have thought damn and might have said it.***I am having a bronchial cold and am under the weather and when so I am always mad; have ever thought it a disgrace to be sick; I was 78 last Monday, 'the good die young.'***

"I see 'Ananias' Teddy will be in Portland Thursday, he is after the Maine vote. He is a cheap———he is, he pretends to be for Peace, but let some other fellow get nomination in 1920 and you'll see where Peace comes in; the average person does not appear to see through his pretenses."

PORTER

The following letter was written by Howard E. Miller to his sister, Pauline Chapman, from some place in France.

Dear Pauline:—I received your letter and was glad to hear from you. I wrote you a letter about two months ago. I hope you got it all right.

Yesterday I was on guard and it rained and the mud was six inches deep. Today we had a big snow storm on top of that and the walking is great. Mud is bad enough, but when there is six inches of snow on top of that, it's great.

We have guards stationed all around the camp who do two hours duty and then he has four hours off. By having it that way, two-thirds of the guards are off all the time. The army regulations say that all guards off duty shall remain at the guard house. Lately the officers have been having a hard time keeping them there. So the other day they were all out the sergeant of the guard being the only one present and the officer of the day came around. The guard at the entrance did his duty and yelled, "Call out the guard, officer of the day." The sergeant of the guard runs outside and says "here I am."

We have a paper that is printed at this post. I am enclosing a copy which will give you an idea of the doings of us boys over here.

I am trying to keep a diary but it is getting kind of monotonous as each day is exactly like the one that preceded it with the exception of the weather which is never the same two days in succession.

We have some search lights over here that were made by the G. E. Just before I enlisted I worked on a drill jig that is used in the manufacture of them.

I have only been through one air raid and I hope it is the last, but a fellow don't mind them half as much as he does a submarine drill.

I was talking with a fellow that was at a camp in England and he was telling me about an English guard. When a soldier would pass, he would halt him and say, "Who is there?" English soldiers pass an English soldier or French soldier pass a French soldier, but when the answer was "who wants to know," the guard would say, "Pass on American soldier." So you see they are wise to us already.

The American Red Coss has been pretty good to us boys over here. They gave each one of us a sweater, four pair of socks and a pair of gloves. They gave each squadron a graphaphone.

Well, I can't think of anything else to write tonight, so I will close with love from Howard.

Pvt. Howard E. Miller, 53d Aero Constr. Sqdn., Air Service A. E. F., via New York.

Agricultural Warehouse

Food Wins the War
Machinery Wins the Food

There has been introduced in the Massachusetts Legislature, a bill, favored by the State Department of Agriculture, appropriating $200,000 to be expended in agricultural machinery, the same to be divided into ten lots or units and furnished free of charge, or at a nominal rate, with competent attendants and teams, to farmers in ten corresponding districts of the state, for the purpose of speeding up agricul tural production at the state expense. It is proposed to buy

Tractors	Sulky Plows	Mowers
Gang Plows	Grain Drills	Rakes
Manure Spreaders	Fertilizer Sowers	Reapers
Disk Harrows	Cultivators	Threshers
Planters	Potato Diggers	Binders

This only shows once more the scarcity of labor and the need of agricultural machinery to produce the crops to feed the world. We are prepared to fill orders for all these and many other implements. To early buyers we can offer many bargains at much less than present market prices.

Order Monuments Now

War conditions have advanced prices on all monuments, tablets and markers from 20 to 30%. It will be impossible to furnish Italian marble or Scottish granite except from my present stock. There is a shortage coming. I have on hand a large variety of desirable monuments purchased before the advance and a good unfinished stock including marble and granite of several grades. These can be placed early at reasonable prices as I opened my shop March 1, where I would be pleased to show goods and explain the situation.

Every Soldier Leaves His Job Behind

Every scrap of work that was done by men now in the trenches or camps is passed on to us who stay at home. We not only have to do their former work, but we have to take on additional work to keep them fit to fight.

We are getting better pay for our services than ever before. It is true that it costs more to live. But it is also true that no people ever went through a war for their lives without having to put up with certain hardships.

Most men have thought this all out and are ready to do—not as they have done in the past—but anything more that must be done to win.

We are all equally concerned. We must all get busy and stay busy to save ourselves. We must work harder than ever before, and on top of that we must save more than ever before.

Thrift means careful spending—getting everything you can for your money, and saving every cent you don't have to spend. Watch the pennies, nickels, and dimes—they slip away most easily. Don't hesitate to open a small bank account.

Keep saving and your account can't remain small. Interest is worth while, and money at interest in the Bank is far safer than money in your pocket or hidden around the house.

We have made a good start in the war, and we've got to win. Hopes and words won't do—let's go to work, keep our health, think clearly, act promptly, and above all, save our money and put it on deposit in a Bank.

Europe has raised billions by selling us back our securities and borrowing money of us. We have no foreign securities to sell, nor any foreign country to borrow from. We must save our money to provide funds for the Government and for ourselves.

ON CLOTHING

Clothing prices in the future will be higher. Next fall will see quite a rise in prices. Goods that we have on hand now were contracted for long ago and the prices are based on prices at the time of contract, which are radically lower than prices for next fall or even now. While our present stock lasts prices will remain the same. It is to your profit to buy now for next season. It's true economy. We have a complete stock of winter suits and trousers. Overcoats too make a good saving. Our winter underwear is marked at about wholesale price for next season.

Anything and everything you buy here will save you money.

Mrs. Columbia Muzzy

After an illness of less than twenty-four hours, Mrs. Columbia Muzzy died Friday afternoon, March 22, at the home of her daughter, Mrs. H. D. Field, with whom she had lived. Mrs. Muzzy had been active, having been about the house the day before her death, and except for somewhat affected sight, all her physical faculties had been practically unimpaired.

She was the daughter of Frederick N. and Sally (Hammond) Hall, and was born May 13, 1827, on the homestead farm of her parents near Hall's Pond, in Paris. She married Rev. Francis Muzzy in 1848, and they went immediately to a pastorate in Ohio. They remained there for some ten years, when on account of the impaired health of Mrs. Muzzy, who was suffering from malarial troubles, they came back to Maine and settled on the old farm. Mr. Muzzy died in 1888. About eighteen years ago Mrs. Muzzy came to the village with Mr. and Mrs. Field.

Three children of Mrs. Muzzy are living: Charles F., of Palms, Calif.; Henry F., of South Paris; and Mrs. Elizabeth, wife of Herbert D. Field, of South Paris. There are also several grandchildren.

Mrs. Muzzy was a member of the South Paris Congregational Church, which she joined nearly eighty years ago.

The funeral at 2 o'clock Monday afternoon was attended by Rev. C. W. Rogers, and burial was in Riverside Cemetery.

Hastings Bean was elected president, James S. Wright vice president and George M. Atwood sec.-treas. N. Dayton Bolster, who had been president for nineteen years declined a re-election.

Deposits of $443,564.37 are shown by the report of the treasurer. This is a small decrease from last year, undoubtedly due to extensive buying of Liberty bonds. During the period of the first and second Liberty loans, the deposits fell off $13,610.94, but since the close of the second loan they have increased $7,132.21. The reserve fund and profits are now $35,782.70, an increase during the year of $3,637.13, giving the bank an even better financial showing than before. The number of new accounts opened during the year is 198.

Silas Packard Maxim

Silas P. Maxim, a life long resident of Paris, died Sunday afternoon at the home of his daughter, Mrs. Florence Hicks, Highland avenue. He was 91 years old.

Mr. Maxim was the son of Capt. Silas and Hannah (Packard) Maxim, born Feb. 21, 1827 and related to Sir Hiram and Hudson Maxim, two famous inventors. He was educated in the Paris schools and Hebron Academy, worked on the farm summers and taught school winters before learning the carpenter's trade. He was interested in the mill business at Paris Hill for a number of years, then moved to South Paris where the house finish mill has been carried on at the iron bridge for a long period in company with his son, Walter P. Maxim. TO THE PUBLIC

It is clearly evident that a systematic effort is being inaugurated in Maine to make the question of the ownership and utilization of the undeveloped water powers in the State a vital public issue. It is urged that the State should own and develop these water powers with the certain result that industries would be stimulated and increased, the consumption of coal materially lessened, the advantages of electricity for heat, light and small power purposes brought within reach of communities and individuals now without their enjoyment, and all this at so small an expense to the State and to the consumer that the economic wisdom of the proposed adventure should stand unchallenged and unopposed.

A question of this character and magnitude is bound to become one of political significance in the end, for it is only by Act of the Legislature that State ownership and development of water powers can become an accomplished fact. As an incident, therefore, in arousing sentiment for this principle along familiar lines, some of its advocates have already asked the public to believe that the corporations now owning the water powers are retarding the progress of Maine for selfish and mercenary reasons alone, and that those individuals who have ventured to condemn or even question the policy of State Ownership are wilfully ignorant or improperly influenced. And it may be said with equal truth that others of its advocates have invited the criticism that their readiness to endorse and support the movement is actuated wholly by the belief that such a course will best promote their own political fortunes. But this question is larger than partisan politics, larger than personal ambition, larger than the promises of private gain. The commercial welfare of the State may be at stake, and there must be many men whose final judgment will be reached and registered not through prejudice, corporate influence or pride of opinion based upon superficial knowledge, but only through a deliberate and careful study of all phases of the problem as those phases may be presented for their consideration and review.

If both sides of this great issue can be shown to the people of Maine without concealment or evasion; if its faults as well as its merits can be discussed in good temper with fairness, honesty and the single purpose to secure and state the facts; the verdict of that people irrespective of the side with which it may be in accord, should be accepted with equanimity by all concerned as additional evidence that the sober sense of the State can be safely trusted to protect and foster its future and commercial destiny.

The signers of this public announcement are owners both of developed and undeveloped water powers in Maine. They have had faith in Maine and in the opportunities offered here for the successful conduct of legitimate enterprise. They have built up large industries, have created in some sections flourishing communities, have contributed in no small measure to local and state-wide industrial activity and prosperity and to accomplish these things have raised much capital here at home, and have brought much here from outside of the State. They are opposed to the principle and policy of State ownership and development of water powers and feel that the time has come when their side of the case, their convictions and their reasons for them, should be presented with vigor, accuracy and thoroughness.

They believe themselves to be neither timid nor unduly aggressive, neither more nor less selfish than those who hold contrary opinions upon this same subject, and believe that the people of Maine will listen to their arguments in the spirit of fair play and with an open mind.

There is but one way in which their story can be told effectively and with propriety and that is through the different mediums of publicity, particularly the press. They intend, therefore, to begin and conduct at their own expense a campaign of publicity throughout the entire State for the purpose of undertaking to demonstrate the economic folly, the impracticability and the absence of real necessity that in their judgment attends every phase of the plan to commit the State of Maine to the unwise and dangerous policy of purchasing and developing the water powers within its borders. The argument in the case as they see it is not confined to one side, and having an equal solicitude and regard for what they conceive to be the true welfare of Maine, they propose to advance and defend their own views upon this subject with every decent and legitimate resource at their command.

The services of Mr. William M. Pennell of Portland have been secured to conduct the campaign herein outlined and he will have direct charge of placing the facts before the public.

Wants in the Intelligence Column, pages 8 and 10, are numerous. A wood chopper on a cordwood job, and there are others who want. Read it.

Mrs. A. J. Stearns went to Boston, Monday, in the interest of Red Cross work.

Lake Temple Pythian Sisters will serve a covered dish supper, Tuesday evening at 6.30. Each one will carry something in a covered dish.

Ernest Hutchins limps about with a jammed foot. It was injured while hauling cord wood a week ago last Wednesday.

Why does George Ames lead those woods horses about the street so much? If he wants to sell them, he'd better put an ad in the Intelligence Column of this paper.

George Ames, grandson of Baker Ames has returned from Camp-in-the-Narrows, Richardson Lake, where he has been since last October with 14 horses. The horses are in fine condition and so is George.

Sent in: "A man beat his wife so she had to flee to the neighbor's and there is talk of administering tar and feathers."

Barber shop remark: "There goes the Truant Officer and as Charles Dinsmore used to say, and a salary of $50.00 a year and don't have to lift a finger."

H. G. Dinsmore has his face strapped up in surgeon plaster and is struggling with a series of Job's comforts on the left cheek.

The "ten" was left out and made last week's snow shoe item look ridiculous in comparison to the amount of white ash owned by the W. F. Tubbs Co. It should have read ten and one-half thousand pairs of snow shoes—meaning 15,000 and not 1,500.

Mrs. William H. Leavitt of Rumford is visiting at Wm. C. Leavitt's on Orchard street.

The millinery opening of Pettengill & Perfault last Friday and Saturday was well attended. In millinery there is a wonderful variety of pretty pokes, turbans and sailors small in size and simple in line and trimmings. New shapes are not as numerous perhaps as are variations of old favorites. Crowns are mostly high. Brims are incorrigible—some flare up, others roll and many just flop. Decorations consist of wild flowers, wheat, curled ostrich plumes, daisies, etc. Colors predominating are ocean blue, khaki, crown blue and black. Cire ribbons are used in abundance. Apparently there has been nothing omitted. The miss if 12 or the woman of 75 can satisfy her style desires this season.

O. L. Stone preached in the Baptist church on Paris Hill, Sunday.

Arthur Parker, who has been scaling in the woods in New Hampshire, the past winter, has returned home.

Twenty-fifth Anniversary Recognized

Wednesday, March 20th, was the twenty-fifth anniversary of Don C. Seitz with the New York World and it was observed all day by friends dropping in to congratulate him. His office was decorated with flowers and a mammoth bouquet of American beauty roses expressed the good wishes of the executive offices of the newspaper.

Mr. Seitz was Albany correspondent for the Brooklyn Eagle from 1887 to 1889. From 1889 to 1891 he served the Eagle as city editor. From 1892 to 1893 he was assistant publisher of the old New York Recorder. March 20, 1893 he joined the staff of the New York World, first acting as managing editor of the Brooklyn edition of the World from 1893 to 1894. In 1895 he was made advertising manager of the New York World. He continued in that capacity until 1897, when he was made business manager, which is the position he holds today.

Mr. Seitz says: "I have never resigned from a newspaper job, I have always been fired."

The editor and publisher says of him: "Don Seitz is one of the best-known and one of the most able newspaper makers in America. He is known almost as well as a writer as he is a newspaper executive. He is thoroughly human, and is one of the most likeable men in the world."

Chas. Edward Gilbert, 73, of Water street will complete thirty-three years continuous service with C. B. Cummings & Co. next May. He commenced working in a saw mill in Canada, when nine years of age and but for an occasional job on farms has handled lumber since. Mr. Gilbert came to Norway in 1885, and through prudent living built a home and cared for a family. His wife died several years ago leaving the care of the father to his daughter, Leonie, who lives with her. A son, E. Nye Gilbert learned a trade in this office and is foreman on the Rochester Telegram, Rochester, N. H. Mr. Gilbert stacked lumber during the coldest days this winter and experienced only a few frost bites.

Merritt Welch has a maple syrup industry in full swing. A dozen trees about his lawn are yielding the sap in sufficient quantity to warrant an investment in spiles and tinware. This is the idea Prof. Geo. A. Yeaton has been working upon during the past few weeks and is a good example to follow during the weeks when molasses is king of sweets.

The fourth in a series of cycle teas by the Temple Pythian Sisters was given Wednesday afternoon by Mrs. Emma Cullinan. The afternoon was pleasantly spent and dainty refreshments served. In the party were Mrs. Gertrude Libby, Mrs. Charles Richardson, Mrs. Evis Cook, Mrs. Linnie Bartlett, Mrs. Mary Lewis, Mrs. Rose Banks, Mrs. Susan Wentzel, Mrs. Vira Kilgore, Mrs. Flora Newcomb, Mrs. Walter Cullinan, Mrs. Oscar Bennett, Mrs. Walter Pride and Annie Newcomb and the hostess. This was a benefit for the degree staff and a neat sum was realized.

He was long associated with his brother, Dr. John Z. and later with his son, Dr. Harold, the three of the same name in the same profession in the same town requiring caution in speaking of one to be explicit to avoid confusion. Dr. Shedd was head of the Memorial hospital at North Conway for years and was a skilful surgeon.

Dr. Shedd was born in Waterford, Feb. 13, 1853, and graduated from Bowdoin Medical school in 1879, entering immediately upon practice in Bartlett, N. H., where he remained four years. THE BIG BATTLE OF THE WAR

The eighth day of the great German drive declares the "German drive stopped" on the western front. That the German effort by a terrific rush to get between the French and British forces with the object of defeating each separately, has failed up to the present. The fighting qualities of the allied soldiers have served to stay the impulsive advance. The offensive is losing strength and the Allied lines are being held intact.

It is estimated that in the great attacks delivered in mass formation more than 400,000 of the nearly a million men the Germans threw into the fray are dead, wounded or captives.

Twenty-five miles represents the greatest point of penetration made by the enemy in his advance. Some of the lost ground has been retaken.

MILITARY EXAMINATIONS

Examinations in Class one are going forward slowly as the majority of available registrants in the county have been called before the board.

A card index answering forty or more questions regarding each of the 3050 registered in June is under way. Each card is a condensed history from the questionaire and will in a small space give the Adjutant General information that leads to quick classification and an intimate knowledge of the military situation in any district in Maine.

The seventeen draftees who have been called from Oxford County will report at South Paris, April 1, then start for Camp Devens, April 2 on the forenoon train.

HALF SICK, HALF WELL

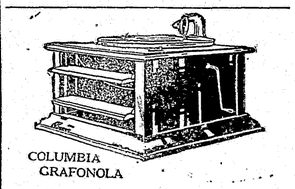

A Condition That Will Not Improve Upon Itself.

In the Spring the depressing condition that many call spring fever often runs through families and neighborhoods.

This indefinite, hard-to-describe state of poor health probably means that you are thin-blooded and anemic. Exhausted thin blood gets thinner, low vitality falls lower, poor appetite becomes poorer. Then the thoroughly exhausted system can no longer resist, and on comes the prostrating illness or serious disease.

Treat the half-sick, Spring-tired condition with that splendid course of medicine—Hood's Sarsaparilla, to fortify the whole body; Peptiron, to ironize and make rich red blood; Hood's Pills to rouse the liver to its regular daily duties,—and the half-well revives to perfect health.

Have you ever tried this potent combination of Spring medicines? Each is valuable in itself but is trebly so when used in this combination as a regular course of treatment.

LETTERS FROM COMPANY D

The following letter written Feb. 24 by Cook, Orville M. Palmer, Co. D 103 U. S. Inf. in France to his sister, Mrs. Carl Foss at Norway. He says: "It is time for me to write you a few lines as I am well and feeling O. K. and that is what we call good in this country. We are just back from a little trip to the front and we had some time up there, we were lucky so didn't lose a man. I went in as cook so was with Scott all the time. Ernest Mattor and I had the day work while "Red" and Scott cared for cook shacks nights.

"I took two or three walks up to the front line to see if I could get a look at a German, but was not lucky enough to get a drop on one, believe me some of the boys got a good look and know there are a few of that nationality less. You would think to hear the boys talk that they had been for a happy rabbit hunt instead of for war.

"Speaking about slackers, I am glad that I came with the boys because all are well trained and we will make them go some a little later.

"I have not seen a town for some time that is not all shot to pieces, which makes an awful sight. Ernest and I traveled through five towns without a good house standing. We will, however, never worry about a home when we get back, all we will need is a shovel and blanket and can then make an abode anywhere in the ground.

Lieut. Alfred J. Dyer Co. D 103 Inf. wrote an interesting letter Feb. 20 to Norway friends from which the following extracts have been taken. "We are just back from the ditch, taking a much needed rest. Our 103rd had the honor of being the first National Guard regiment in the trenches. Not only that, but D Co. of Norway and B Co. of Rumford were the first companies in the front line."

"When we entered there was a lively reception and we received a big surprise. But the boys were ready to meet the test so before we were relieved I think Fritzy got all he wanted from us.

"The life is very strenuous and strings a man's nerves to a high pitch. Little sleep can be had because of the continual pegging away. Now we are out on a rest it does seem good to get away from the noise of bursting shells. Those small machine guns are regular little spitfires. They make a fellow hug the ground pretty close at times, I know that.

"It seems as if France is ruined. When a fellow can see the vile Boche and his destructive work he will always hate him. The German is worse than a savage. They have torn down cities, villages, churches; they have cut to pieces orchards and timber tracts have been shot to slivers by their artillery. Their abuse of the inhabitants is awful. We all have learned to despise the Boche from things we have seen. I only hope the U. S. can wipe the Germans off the map.

"France is too easy with the prisoners and uses them fine, it takes the Australians to look after this branch of the service. We are finding mud a plenty here, in fact we live and sleep in it. We are getting to be regular ground hogs which is the only part of this game I don't like. We should worry for it will all be over some day and when we return there will be some experiences to talk over and laugh away our hard times."

Norway Lady Has Interesting Heirlooms

Olive A. Woodsum of Main street has two Civil War souvenirs of considerable interest. One a large woolen army blanket captured from a Southern regiment during a raid by her uncle, the late Eben Woodsum, who enlisted in Abbington, Mass., at the outbreak of hostilities and served through the war. During leisure moments he decorated the blanket with needle and worsted designs showing the American Eagle, a furled Union flag and the letters "U. S.," all being surrounded by sprays of holly and oak. The work was nicely executed and each color remains through fifty or more years, bright as when done.

The other war reminder is a rubber composition ink well found during the Southern campaign. A flying eagle and the following inscription has been engraved on one side "E. Woodsum, Brandy Stn., Jan. 12, 1864."

She also has an historic bed comforter or puff made during the famous "Harrison and Tyler" hard cider campaign. This has been in her family more than fifty years and survived the Norway fire in 1894 with a few small burned places caused by falling cinders. The squares are made of flowered print unknown to this generation, each alternate piece has a likeness of General Harrison surrounded with magnolia blossoms or the well known log cabin and cider barrel which figured conspicuously in that political campaign.

A cup and saucer more than 130 years old is another treasure presented the Woodsum family a quarter of a century ago by the late Calvin Russell, who resided here some years since. The articles are made from heavy ware and decorated with leaves, flowers and sprays done in green, pink and lavendar. "Canton China" is stamped under the saucer and it is the real thing. Its early history is unknown to Miss Woodsum except in the Russell family these articles were highly prized because of early memories.

The Woodsum residence stands on the foundation laid by the late Aaron Shackley, brother of the late Eben Shackley of Pike Hill who purchased the land from the Rusts early in 1800 and erected buildings that remained until the Norway conflagration. The family lost may valuable and time honored treasures when the ancient mansion crumbled to ashes, but the present home replaced in a way the early structure made hollow by two families who settled when Norway village was uknown.

Within a few years two stately elms shaded the lawn, one was removed, having been killed when the original house burned, the one standing on the lot recently purchased from the estate of Fred E. Smith was set out in 1824 and not more than three inches in diameter. The fine trees bordering Henry B. Foster's residence were placed about the same time, which was then the Rust property.

Rather a peculiar incident happened the other morning when we received our mail. In it was a card and a letter side by side from two men by the same name, but widely separated as to location. One was from J. B. Mason of Mechanic Falls, the other from J. B. Mason of Council, Alaska.

John F. Stearns of Lawrenceville, N. J., an uncle of Dr. H. P. Jones, recently celebrated his 88th birthday.

Mrs. Ella Jewett Cole and grandson Stephen Jewett, Jr., are visiting her son, Dr. Stephen P. Jewett and family and daughter Mina Jewett, in New York City. They plan to return about April 7.

NORWAY GRANGE

An all day session was held by Norway Grange on Saturday, March 23. The meeting was called to order by Worthy Master W. O. Perry at 10:45 a. m. Officers pro tem: Emma Swan lady assistant steward; Ruth Holgate, secretary; Alice Marston, ceres; Abbie J. Tubbs, Pomona; Mrs. A. E. K. Grover, lecturer. The above acting during the forenoon.

Opening exercise including song America was followed by a brief business session. The work of conferring degrees was then taken up and Mrs. Ada Kilgore and Ruth Akers wee instructed in the third and fourth degrees, giving them full membership.

Prof. G. A. Yeaton and F. H. Dudley State Horticulturist, were present during the forenoon session and were the speakers for the afternoon. They also explained in regard to the Pine Blister pest and advised the burning of currant and gooseberry bushes as these are invariably infected and the disease spread to the pine forests. Several questions were asked. Prof. Yeaton was obliged to leave at the close of his lecture.

Mary Gammon was pianist during the forenoon.

A recess was declared for dinner. The meeting was again called to order at 1.15 by the Worthy Master. The program for the afternoon. The numbers presented by Captain Buck were:

Song, "The Grange is Marching On", the audiance joining.
Paper, "Importance of Grange Work".....Mrs. A. E. K. Grover

Prof. G. A. Yeaton was introduced and gave a timely talk on the destruction work of mice and borers in the orchard, and an exceedingly instructive and interesting demonstration of grafting and explained very plainly the reasons for setting scions in just such a position to avoid loss and also in regard to cutting for budding.

Song, "In the Shade of the Old Apple Tree" Capt. Buck, Harriet Buck and Mrs. A. E. K. Grover

F. H. Dudley was then introduced and gave an instructive, comprehensive talk on the orchard, illustrating the destructive work of orchard pests with photographs and affected wood. The advantage of the investigations and experiment made and given to the public in such a practical manner is of immense value to the orchardists who conduct the business on a large or small scale. Ine point of much interest is that spraying at the time the buds are pink, and after the petals fall will obviate any harmful effects on Bee culture in the vicinity of orchards.

As this was "Apple Day" the stage decorations were in keeping at the centre back a standard surmounted with flags, bore suitable mottoes in silver with a green background, at the foot a stand decorated in green and red, on which was a pyramid of apples. The flat decoration at the front was in red and green with pyramids of apples at intervals.

Captain Ada Cox, assisted by Beryl Russell and Minnie Haskell, will have charge of the next program on April 13 at which date the Boys' Corn Club will be organized. A speaker is expected to be present. Captain Annie Brown was to have had this meeting, but owing to the severe illness of her mother, Mrs. H. P. Brown, ws unable to do so.

Meeting closed in form. The next meeting will be Apil 13th at 1 p. m.

There has been and still is a number of members who are on the sick list, but it is hoped they are all gaining in health. "Uncle Ben" Tucker, eighty-seven years young was present and was one of the most interested listeners.

Those who do not own orchards or farms in any way could not fail to be interested in the talks mentioned above and one is fortunate to have such valuable information, that they can, at times pass it along to those who are deprived of the privileges of listening to those giving instrutions on a scientific plan, and from actual experience and experiments.

William Gammon was home from Bath over Sunday visiting his parents, Mr. and Mrs. Frank Gammon. He has been with the Texas Ship Building Co. since October and likes the work.

Charles E. Smith, Brown street, who entered the Central Maine General Hospital ten days ago, was operated upon and a large amount of fluid drawn from one lung. This condition followed pneumonia, but every symptom is favorble for a rapid recovery.

Alton Curtis had the Canadian Express team on wheels Monday, March 25, the first one to appear for general business this spring.

PROSPEROUS GREENWOOD FARMER

Arthur A. Noyes lives in Greenwood just a little way from the Norway town line. I'm not certain that he does not own land in this town. His farm is just beyond Upton Ridge and contains a couple hundred acres.

Arthur Noyes is a son of Isaac, whom everybody knows as "Shaky" Noyes on account of palsy afflictions. Uncle Isaac hasn't come into the village for a long time, but he is living and shaking at 84 about as usual, though confined indoors pretty closely.

Arthur recently came into this office to pay for paper and I pumped him a little on farming. He says potatoes which have been struck by rust are not fit to plant any more than rust stricken beans. He says he is to change his potato seed this year, though he only plants for home use—a half acre or so.

Mr. Noyes has 25 head of cattle, mostly cows "that come in" last fall which have been producing a good quantity of milk, which he sends to Portland. He ships by the way of West Paris—4 miles. distant in the winter and in the summer the milk comes to Norway depot. He has three work horses and two autos. He thinks he is a little strong on gasoline buggies, having a Ford and a Hudson touring car. He does chores with the former and visits with the latter—when he can get time.

His son, Walter F. Noyes, attends school in Norway and takes care of the auto besides doing some work on the farm. No doubt the boy will get so much education as to be unwilling to waste his life on a farm: That is the usual way. Mr. Noyes has three daughters and a modern home with all the improved conveniences such as hot and cold water, bath, toilets, telephone and electric lights. It was remodeled a few years ago at a big expense and was paid for out of the income of the farm. Never failing running water comes to the barn.

At one time there was a big sap orchard and much syrup was made, but borers or some kind of insect ruined many of the trees and they have been used for fire wood, yet sufficient syrup and sugar is made for home use.

There are many Baldwin apple trees and some years Mr. Noyes got a thousand barrels of apples. He got 500 barrels last season, which he sold for $1500. This year is "the bearing year" and a large crop is expected.

Arthur admits his farming pays him but he has to work hard and attend to things. He keeps one hired man—who has been with him several years. He sometimes thinks he will quit farming, but I guess he won't. He is 51 years old and is beginning to slow down a little bit on work. He admits this. I'm going up there one of these days and see Uncle Isaac and look over the place.

Spring has come: robins, bluebirds and song sparrows are here in numbers and their songs bring some cheer in these dark days of war.

CORPORATE OR STATE DEVELOPMENT

We have commenced the publication of what some newspapers call a political advertisement. Be that as it may, it is discussing a subject of interest to every person in this State. It is of vital importance which way the State turns in its undeveloped water powers business. Get posted by reading both sides and do what you think is best.

The Baxter idea of State Ownership will probably appear in this paper and we desire our reader to become informed and act in accordance with good judgment in the light as they see it.

Much of the future prosperity of our State depends on the way this question is settled. This will be the great economic issue that will come before the legislature next winter.

It is not a political matter in the ordinary sense of the term. It is an economic question in which everyone is interested. Get posted, read, and draw your own conclusion.

Shall the State own and control the water powers or corporations? Which? That's all there is to it.
